

Seekho Sikhhao

Yesha Shah

**A Community-Driven Peer Learning
Platform**

Yesha Shah B22CS067

Problem

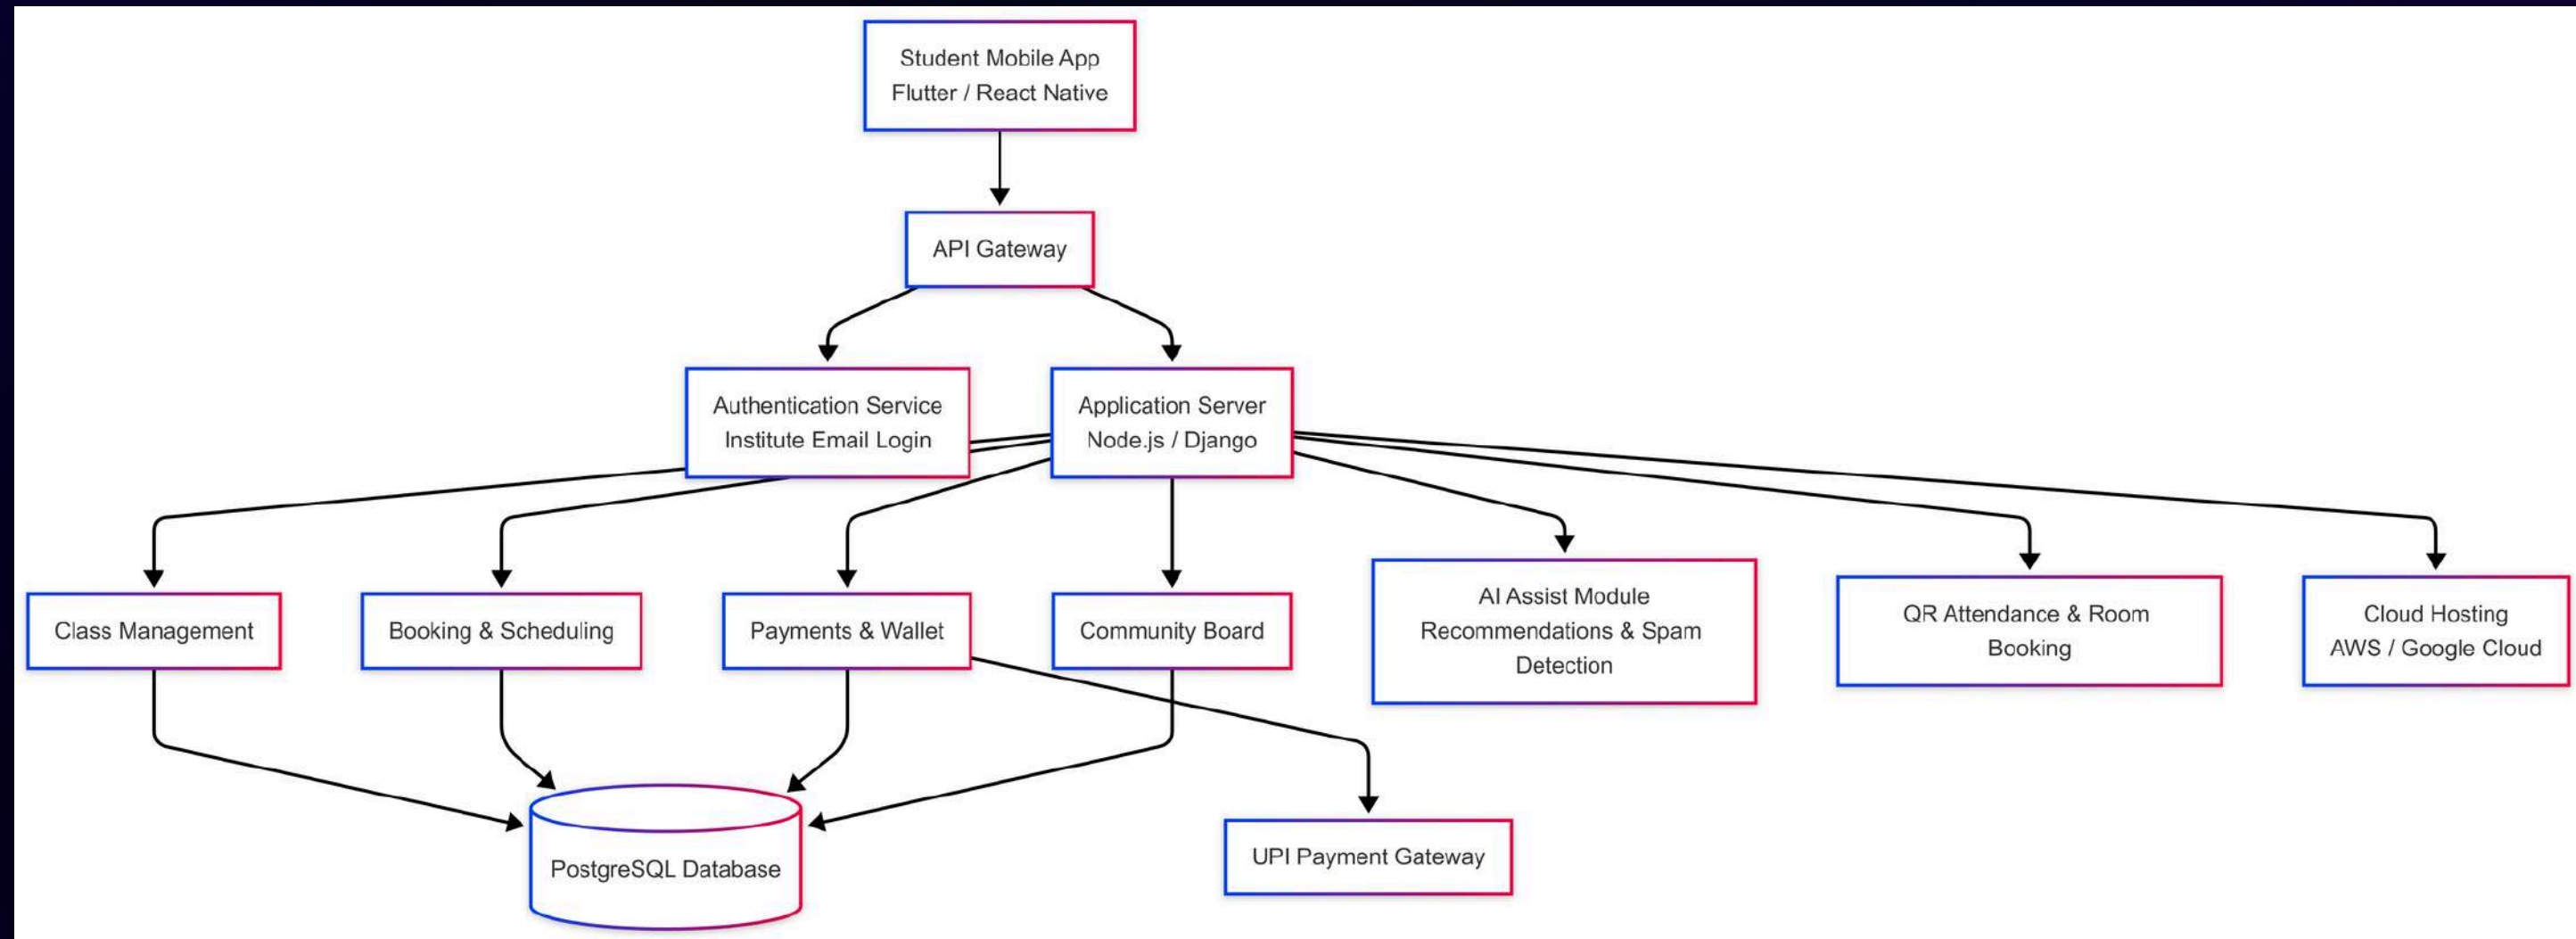

- Skill learning is expensive & inaccessible
- Students feel disconnected on campus
- Hard to meet like-minded people
- No platform for skill + social interaction

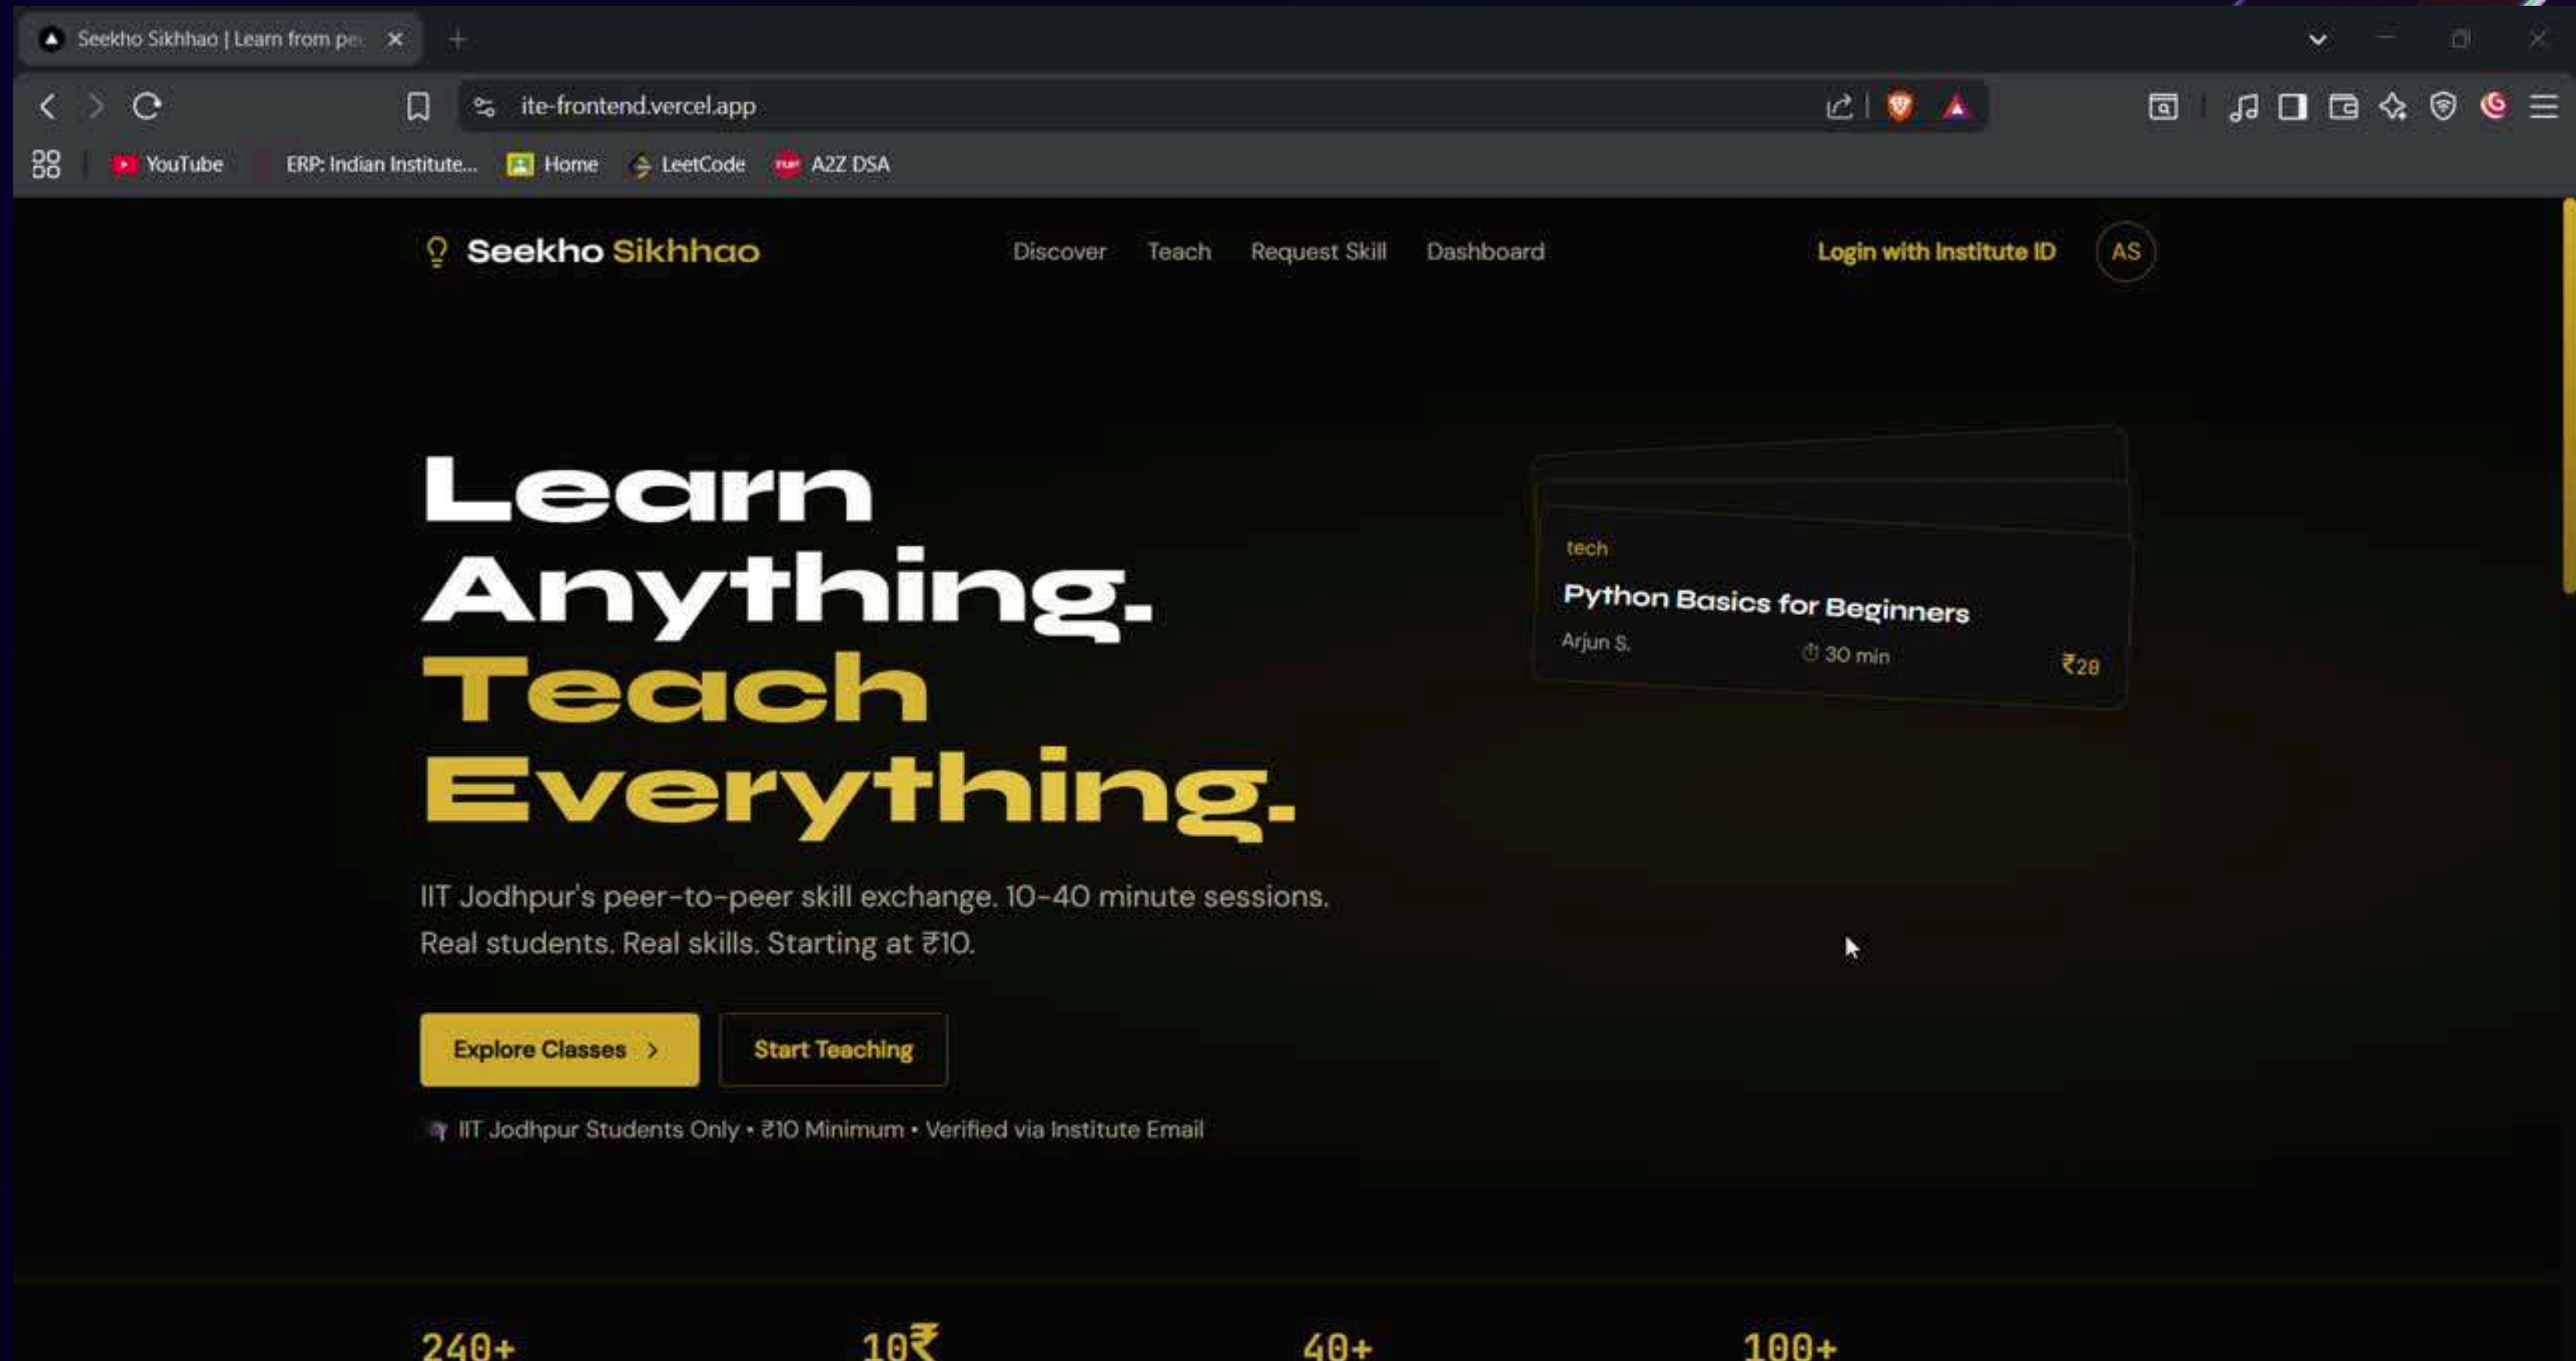

Solution

- A platform where students can:
- Teach skills
- Learn from peers
- Meet new people
- Build a community
- Short, affordable sessions (₹10–₹40)

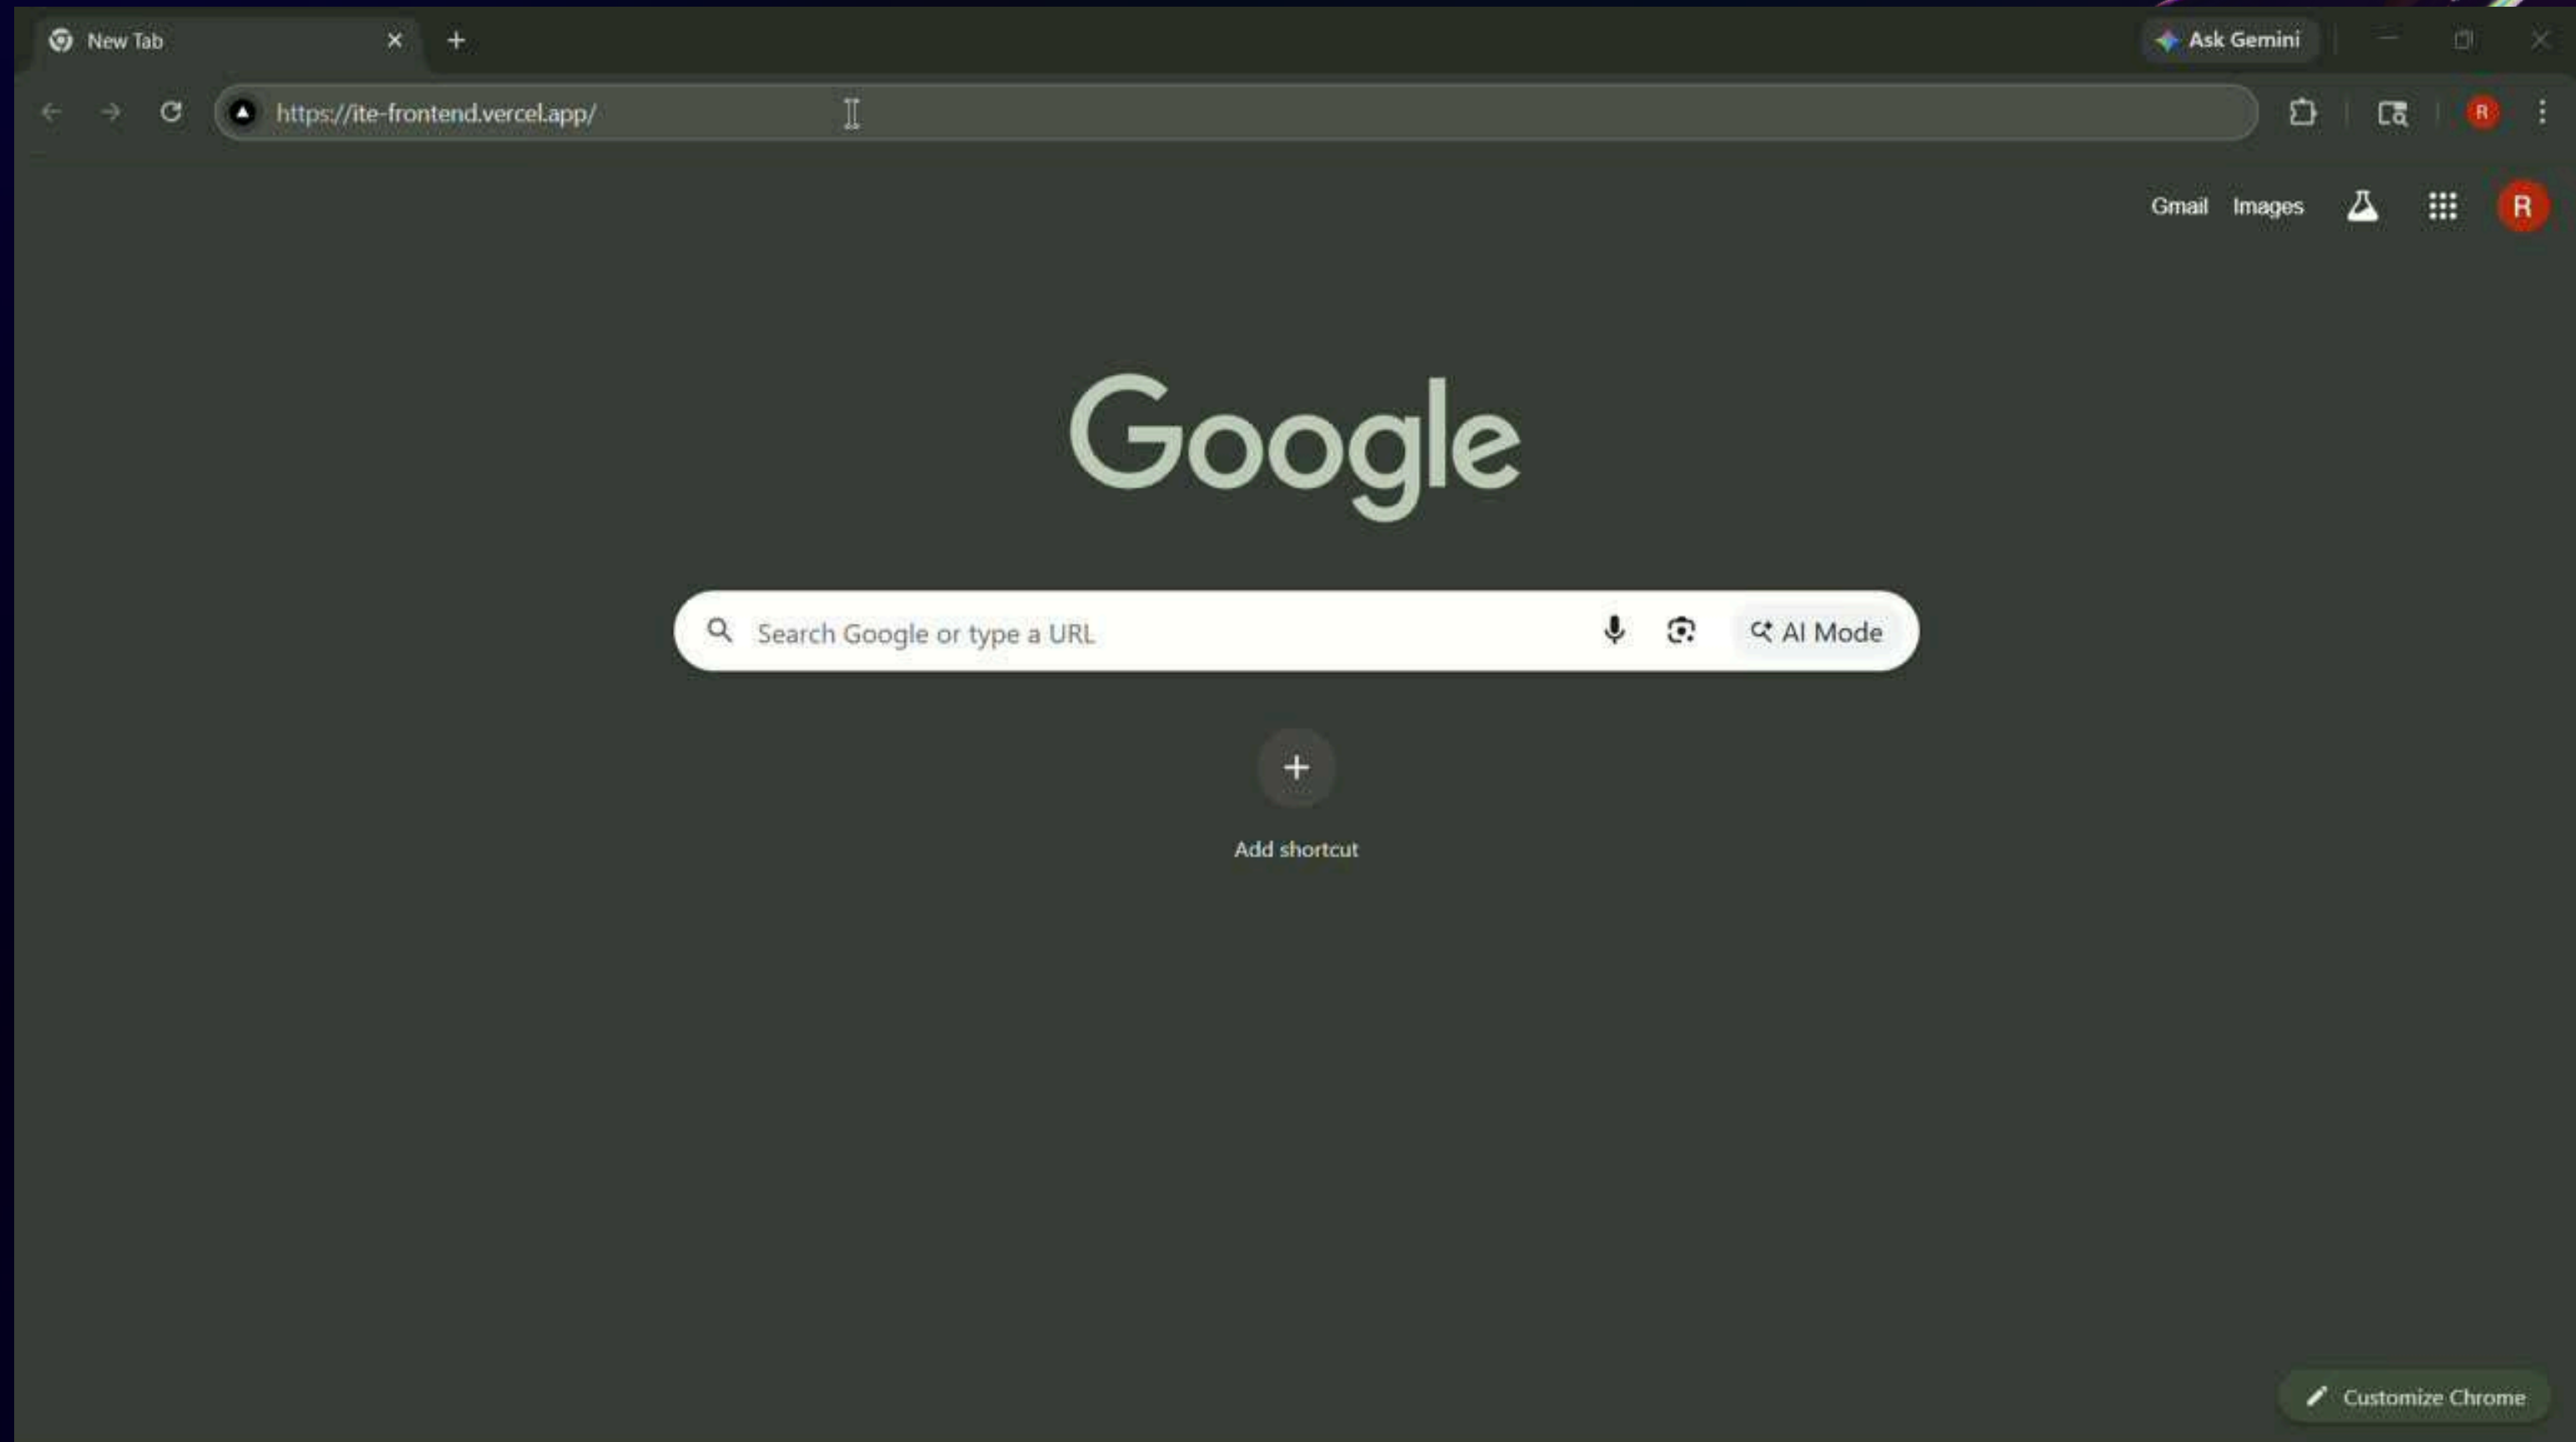

THE ARCHITECTURE

ITERATION 1

ITERATION 2

Yoga Class

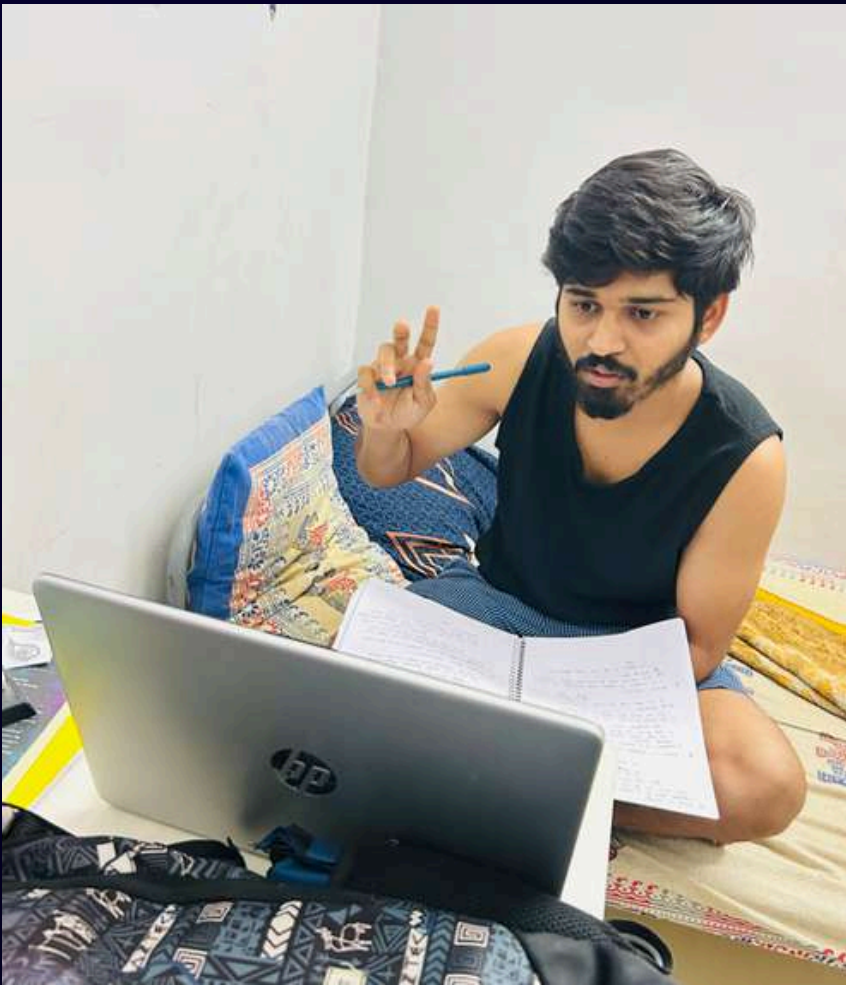

Students gathered and practiced yoga and meditation together for some time

Art class

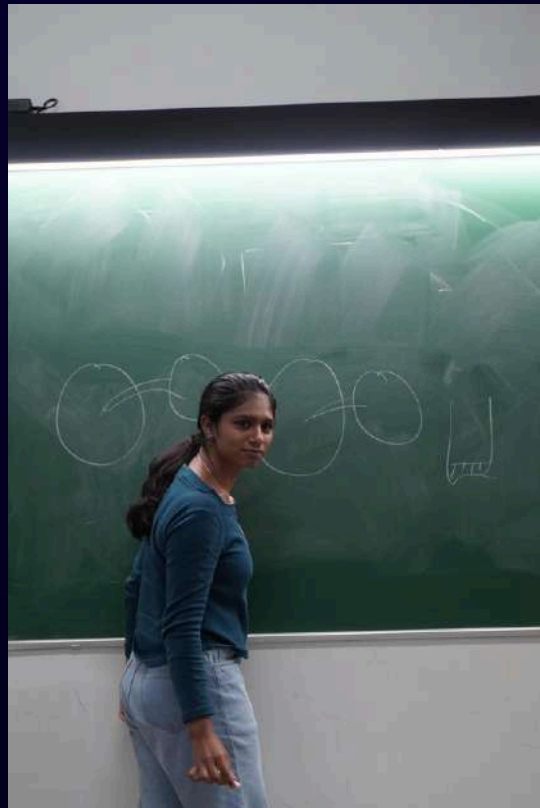

**Students sat together and worked on origami
and sketches exploring their creativity**

Hackathon class

Students teamed up and discussed tricks and tips for coding actively

Communication / public speaking class

**Students practiced speaking in front of others
to improve confidence and clarity**

Pool (sports) class

Students took turns playing pool, focusing on aim and technique

Customer Review Videos

Common Questions

- How will we figure out what class to go to? Will there be a rating system?
- How do we figure out the venue for the classroom?
- Why is the app better than YouTube? Why should I pay a premium price to learn something?

Customer feedback

10 One suggestion to improve this app?

10 responses

Add trial classes

Add more catogaries

Add ratings for teachers

Add secure payment system

More ways to connect

Make it more engaging by maybe adding more people to the teacher group

Promote more on campus

More offline classed

Make it more interactive

Future Scope

- Community groups (interest-based)
- Friend connections / profiles
- Events & meetups
- Ratings & trust system
- Cross-campus communities

Thank You
